

MPA-Installation channel 29/15

aluminium alloy, seawater proof

Application

- Fast and efficient attachment of piping and pipe routes
- Flat support channel for the attachment of systems in areas with low overall height

- Flexible attachment in the ceiling area, simple alignment and readjustment of systems
- Simple assembly of support channel on bulb flat steel due to gridded hole template

Your advantages

- Flat and space saving design
- High bending stiffness due to the cross-section design

Profile	Length [mm]	Material	Part no.	Sales unit	Pack unit
29/15/3.0	6,000	aluminium alloy	155200	1	Pieces
28/15		V2A	157373		
	6,040	hot-dip galvanised	177937		

MPA/MPC-Mounting angles

Design	For profiles	Material	Part no.	Sales unit	Pack unit
45°	27/18, 28/30	galvanised	118753	50	Pieces
90°			118797		
45°		V4A	118789	25	
90°			118902		
45°		hot-dip galvanised	180247	50	
90°			180248
