

MPT-Vario Foot

hot-dip galvanised

Application

- Reinforced joint angles for corner and angle connections as well as bracing in conjunction with MPT-Support profiles Q100
- Additional fastening options thanks to 4-fold perforation

Your advantages

- High flexibility: Connection of MPT-Support profiles Q100 with any connection angles
- Stable connection: secure power transmission thanks to fastening with MPT-Hammer head bolts (strength class 8.8)
- Can also be combined with VARIO base plate for a wide range of mounting options
- High corrosion protection due to standardised hot-dip galvanising ensures flexible implementation outdoors and indoors

Set of 2 pieces

- !** A set consists of two pieces. Fixing elements are not included and must be ordered separately.
- To connect the base plates, an M16 x 80 mm hexagon head bolt (item 173341) can be used in combination with an M16 self-locking hexagonal nut (item 182999). The base plates are fastened to an MPT-Support profile using MPT-Hammer-head bolt.
