HP-Clamps

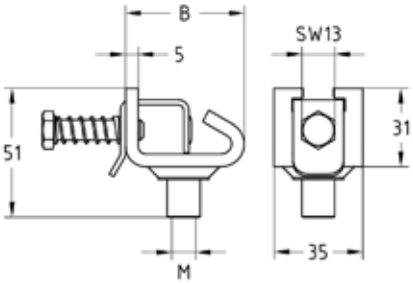
zinc-nickel

Application

- For simple and fast connection of fastening elements and equipment to bulb profiles of the ship‘s structure without welding

Your advantages

- Using just a single screw connection with little time required for fixing in comparison to the conventional fastenings
- Direct and flexible fastening at any desired position on the bulb profile
- Subsequent fixing also possible after conclusion of the „hot work“
- Slip-resistant fastening to the bulb profile without damaging the corrosion protection due to clamp mechanism
- Light-weight construction to meet the demands in terms of weight reduction in shipbuilding
- High load-bearing capacity of up to 4.5 kN



Features

Max. recommended tensile load Fz [N]	Max. recommended load lateral FQ [N]	Tightening torque [Nm]
4,500	1,500	9
