

### Vibration control element galvanised

#### Field of application

- Versatile use, e.g. for the fixing of pipelines, air ducts and equipment
- Also for the vibration-damped suspension of sound absorbing ceilings
- Suitable for ceiling, wall or floor mounting

#### Advantages

- High noise reduction of up to 26 dB(A)
- With self-extinguishing, decoupling washer
- Does not tear out in case of fire due to steel casing

#### Features

Max. recommended loading (with optimum damping) [N]:

axial tension	600
axial compression	300
radial compression	200
